

Lets just say 2%. Price is dropping already. I don't see it going any higher 10K. Will probably be 9500 by the end of the day.

Sure. I can quote 9800. That's 2%.

Quote is good for two hours.

Texting is better for me.

If I sold six, would you be willing to do a smaller commission?

It's sitting at 9800. Been between 9600-9900 for the last twenty four hours.

I'll buy for 9800 today. Will wire funds in your account on Monday.

Are you still interested in selling?

Let me know.

Thanks

Ok. I can do that for 5%. If you send it over now I can have a wire in your account tomorrow afternoon/wednesday morning at the latest.

Price is very volatile and can swing 5-10% during a day so I just quote when I send it to you.

That work?
