Good morning that's the payout for 23rd of this month

some good payouts there mate, just as a matter of interest what is the price of the 0.5btc software and is the 0.5 btc software able to be used twice per day also mate?

The software its self cost \$1200

hey mate and how does it work now? you use your software to generate bitcoin upto .5btc? or do you sell the software?

I sale the software but because of the cost not all people can afford

yes i see and do you also sell software mate?

Yes i sale

I will send you the file to just install on your pcall you have to do is sign up with your necessary details..

ok are the people who developed software good to deal with? and are there still limits on usage if i use for myself mate?

Yes

ok

i think i may try a day or two with you first mate

Okay man... You can use for just 3months

ok my friend and i get a copy of the software or do you do transaction?

I do transaction also

That's fine you and your friend

ok or i can do myself?

You can do it your self but if your job won't allow you work on software i can help you manage it and you will receive your 0.5btc every time

ok my friend i will talk more about it next Wednesday with you

Ok

That's good then

Hope you are safe

i might start on the .05 first to see how it goes if thats ok

yes thanks mate still in lockdown

hope you are safe in NY as well

is bad there

Yes i am safe safe
That's fine with the, 0.5btc

thats good mate its been a hell of a ride

Same here in New york

Yes i hope z
we can get back to some sort of normality soon

Yes i hope so man
Its will soon be fine
I lost a client some days back
Its really painful

yes just have to wait it out, lost a client to co vid?
thats sad

Yes
Its really sad... Thank God he already cash out his btc and sold already so his family was able to get the money

yes thank god for that, i live in a small rural town which is good, only 4k people here
and quite isolated

Thats better

yes but i am still very careful, i am a loner anyway so its not so hard for me

Same here my job is indoor work

yes thats good mate

you are still making money so you can survive
hard for all the unemployed and homeless people

Yes

I did give out to orphanage every month

thats good my friend i am sure it all helps and is good to give

Yes....
It's really help down here in the state..
I had a neighbor Daniel he had the virus and came home... Spread it round his family.

yes it shows you as a good person and like me always do your best to help
But i know some day it's gonna be fine

Yes that's the best thing one can do, to help the poor.

yes as i say just have to wait it out or they come up with some sort of medicine

Yeah

i just hope government dont use it as a means to take away our freedom
i mean we have to know but after this is over

Yes man
Its morning i haven't sleep yet u have to take a nap right now
Talk to you later my friend
Cya
I will text when i get up

ok mate rest well and take care
bye for now
Bye

Hey Philip are you online mate?

Yes man
hey mate
How are you doing today

i am a little confused about the software

i am good mate
What's the matter
Just tell me i will clear your indulgence

if i buy the software for 1200 for my personal use, Is it 1200 every 3 months? And can i use it 2 times a day for .5 bt
c. And what does this cost me each time and do i need a fast pc?

Yes \$1200 Every 3months... You have to uninstall the software and get another from me again.
You can use just once a day 0.5btc daily not twice a day.
It doesn't cost you any amount as long as you bought the software, if your wallet is zero it will work... And you can
use on any PC..
Windows 8,9,10

ok i see as i have plenty of time to use myself

Yes man
Is that's the confusion?
The software is profitable its what i use also

yes and one more question

Ok

how much is it to get 0.5 without buying software?
or do i have to buy?
i mean to go through you?

0.5btc cost \$220
0.05btc cost \$120

ok no worries and how long does it take again?

It takes not more than 1hour 15min

Right here as i start your job i will send you the screen shots till your job is completed

ok i will think about the best way for me atm

Good

thanks very much my friend

You welcome my friend

Hope you understood right now?

yep all good mate, i may go for the 0.5 through you to begin, i will consider best way

Yes man that's better

do you need some notice to do it mate?

Like i told you also, most people don't like going for the software, because of time and other personal reasons but they always prefer to start with something low.

yep but 220 for .5 btc is good price

All you have to do is that when every you are ready... Get coin worth the fee, (\$220 for 0.5btc) i will send you the payment address.. Then you have to make payment and send me the payment receipt

Take note that receipt is very important

All i need is the receipt to confirm your transaction to your own wallet

yep no worries i will send screenshot if you like and txid

As soon as your payment is confirmed, you will send me your wallet address. That's why you have to make payment with your wallet address.

ok so payment must come from zallet am using

Yes

and ledger nano is fine

i use a segwit wallet

<https://www.blockchain.com/btc/address/bc1qdy70s39xpn5mn3vnxwxk3pz4nftf7mysxdqkza>

This is a transaction done before i sleep

And more are still coming..

and this is a segwit legacy wallet

Any wallet at all... Your transaction is going to be perfect.. no worries man

cool

That's okay

ok my friend i have to go to bathroom
you have cleared everything up thanks mate

Okay man... Talk to you later, you are free to text me any time

good on ya my friend and take care
speak soon

Okay man... Stay safe

thanks mate

You welcome

no worries mate, just one last thing if i get you to do the first 0.5 btc can i buy the software that day for the 1200 usd
and can i use everyday?

Sure man... Very possible

cool i think i will do that my friend, so on Wednesday my early morning will send you the 220

Okay man... Wednesday right?

and when the 0.5 btc is in my zallet i will send you 1200 usd

so will be your tuesday

Ohhh yes that's very correct.... That's ok

once i buy software how long does setup take?

Just 10-15min

ok so is easy my friend

What's the model of your Pc and what windows
its and older laptop asus pentium and using windows 10 1903
will buy new pc when i have money

Lol yea for sure... That should be one of the things you do first... Change your PC and other things you need to change... You can find a buyer

yes i sold my other pc i built for btc!!
this one should get me started ok though?
can i put software on new pc when i buy it?

Yes i use 2btc that means you really want to get into btc in full then.... You will have to get big customers then ☐

yes i have been into btc for years but got scammed alot, a hacker still owes me 15.6 btc

WTF did you just say 15.6btc an hacker did that? That's very bad inhuman

yes mate i lost alot and he was supposed to be a friend
another friend of mine Festus Lazaroth was shot and killed

he was a 16 year old brilliant hacker

That's bad i really feel so sad when people meet me and tell me they have been scammed by fake hackers... I really don't know what to say but i feel pain that i just have no choice than to make sure their job is done

thats good my friend, i am like you and dont like to hurt people
everytime i try to get my 15.6 btc there is always more fucking fees

That's the same thing people talk about ...that's shit
You don't treat other people you meet like they are your brother

yes i agree my friend

Some months ago a Philippines i helped earn also, after been scammed, so he met me just like you. After i told him several things he did not still believe me.... Just i just talk to him i will refund him... I am doing this to help others so that some people will not have to steal from others.

After he received his coin, he called me and gave his mother the phone to talk to me and was thanking me... He bought the software later and works for people in his country... After this lockdown (Covid-19) he is coming down here to NY

I see people i meet as my family

Thats a good way to be my friend, i have lost about 150k over the last 3 or 4 years to scammers, my life savings

WTF really??

yes stupid i know

And i was here also helping few people that heard about me

but i trust people to be like me
i could take the btc from this hacker who owes me but i would get powerful hackers to do it, but i cannot its not my nature

Hummmm i will see What we can do about him later after you have cashed out next week

yes cool

But for you next week is a week of joy Bruce..

I know for sure

cant wait my friend finally after all these years i have met someone that gives a fuck
i had lost faith in humanity

No there are bad eggs in the same place where good eggs are kept
Its just kinda difficult to know which is bad and which is good

yes i agree mate and you are right

I will talk to you later i have some works to do
Stay safe man and pray for the world

i always picked the bad ones but i never gave up

Good you never gave up man

yes i am very persistent and i will say a prayer for the world my friend
and stay safe in NY

Good man... Take care of yourself. Cya

the one you use i mean

No just got different PC i run it on

oh ok mate, i was just interested is all

don't worry man with time, when you have more funds you will also want to research more on other softwares

yes well 0.5 per day for 3 months will be great for me at this time

But i hope that's won't be to much work for you...because you will have to get some persons employed to work with
you

Sure its a life changing any ways...

yes and is enough for me at this time
i want to begin to build btc

That's good

nothing will go wrong on Wednesday my friend? as i am using my food and meds money

i have been hurt so many times

Yea i understand that

Many people met me and say the Same.... A lady met me from Philippines today, she was scammed, i texted her just the way i texted you but she won't listen... She was scammed by an hacker she had no choice than to come back to me

Thanks man, i just believe in helping humanity

yes your name is important in this game
i try to explain this to my hacker friend and he said he still wants me to make videos for him
i said no until you tell the fucking truth

Lol i even had a young student now pays his bills even bought car ☐

customer service is very important
i was a trainer and boss for 17 years and i know what am talking about

its good to see my friend
I have this great joy when people text me back again to say thank you
So will send gift's..

yes me too as i believe happiness comes from helping others

Yes man

its important
i want to feel happy again

Yes still up just saw your text and replied

must be tired my friend?

Very tired... How are you doing

i was quickly gonna ask when does the use of two times a day end, what btc?

i am good mate

You mean time to earn daily?

no like at .05btc can do twice a day,, upto how much btc can you do that

Its just once a days, you know 0.5btc is around \$3400 although it might rise or drop... You can get 0.5btc once a day then you have to do it another day again

yes but lower btc amounts

I don't get that... Lower btc amount?

like 0.14 btc only once a day also

lower btc amount
sorry keys arent working properly
or all btc amounts just once per day?

No 0.14 you can Do more than that just that 0.5btc Is the lowest amount i do... But if you have the software you can decide to do it bit by bit like 0.1 5X so it will be 0.5

yes ok i see my friend
