I returned my item 10 days ago but do not have any communication about my refund. Since I am in San Clemente and you are in San Juan it should of been there in a day.

Thank you,

Dawn Arthur

Hello Dawn,

Although tracking indicates your returned items (s) have been received, the package is received with several other packages at which point we need time to go through all the packages, and inspect/scan in item (s) before we can generate a return. You will be contacted once refund process is complete. Thank You.

Hello is anyone going to answer me back about this?

Thank You

Hello Dawn,

We do recognize the timeframe is lengthy to complete the refund process as our return process is manual. Due to the return process being manual it does take some time for our inventory to be confirmed received and validated as a proper return. We do appreciate your patience as our intent is not to cause any customer inconvenience but to follow protocols put in place for returns to protect the consumer and ourselves.
