Herasoft unable to fulfill monetary obligations, seeks to sell historic building

Story by Andy Dossett, Bartlesville Examiner-Enterprise • 1mo •

2 min read

The historic and former Washington County Courthouse located in Downtown Bartlesville.

Anthem Blanchard, CEO of both Herasoft and Anthem Vault Inc., declared in court documents dated April 1 that his company is financially insolvent and unable to fulfill any monetary claims, including significant back pay owed to former employees.

According to the documents obtained by the EE Friday, Blanchard was ordered in February 2023 to pay a settlement of \$90,000 in a back pay claim from former employee Jason Carstensen. Carstensen, who was initially owed \$126,000, had agreed to a reduced settlement.

Court documents reveal Blanchard failed to meet his obligations and was sued again in Washington County Court this year. In response, Blanchard said he doesn't have the money.

"Unfortunately, Anthem Vault, Inc. is currently unable to meet its financial obligations and is in the process of winding down its operations," Blanchard stated in his April 1 written response to the court summons. "As such, we regret to inform the court that the company does not possess the means to fulfill any monetary claims presented in the petition."

In the response, Blanchard even asked Court Clerk Jill Spitzer for advice on proceeding "in light of the company's financial circumstances," the documents say.

Carstensen claims Herasoft owes a handful of employees back pay.

During his employment with Herasoft Inc., Carstensen received his paychecks from Anthem Vault Inc. He claims that the two companies are, in fact, the same.

The new Austin? Tiny Texas town with cheap property is set to explode

Story by Isabelle Stanley For Dailymail.Com • 17h • 2 min read

A sleepy Texan town is set to boom in popularity after [Samsung](#) invested \$44 billion to build a new high-tech facility.

The tech giant is opening 'the largest semiconductor manufacturing complex in America' in Taylor, near Austin, bringing thousands of jobs and billions in investment to the area.

Taylor is currently a small, quiet city with just 16,000 residents, but that is set to change.

Mayor Brandt Rydell [told KVUE](#): 'From 2020 to 2030, Taylor will be one of the most rapidly growing cities in [Texas](#), if not the nation.'

The average house price is just \$298,000, but with the plant expected to open later this year, house prices could rise as more luxury properties are built.
