

eddie,
I told you already manish 27th

23:46

we decided my developers payment of \$120 for both violation
but due to some APIs or database static ID issue second issue was not fixed... as we checked and
discussed already to talk with youtube

So how much we will pay him?

See brother

1. I need to pay him \$60 anyhow for 1 violation fixes... as discussed.
2. Every day or everytime if you will ask me to update banners or videos, i will take \$25

So make this note for everytime...

if u don't give me anymore work then no issues... its your choice...

But for each day i will charge \$25 and for month \$115... as before

so till today its $\$60 + \$25 = \$85$... you need to transfer on 27th... if no more work

thanks

00:29

there?

eddie, 00:52

got to go to work

00:52

?

means

eddie, 11:17

so have you change your mind yet?? are you gonna work for me for \$70 month doing updates & med projects + I throw inn extra \$30 for med projects when you do

+EM GONNA PAY YOU THAT \$25 I OWE YOU FOR MORNINGFLEX TERMS & CONDITION & PRAVATE POLICY PAGE UPDATE TO

eddie, 20:14

wup

22:37

Hello Eddie,

I hope this message finds you and your family healthy and safe.

22:44

Brother, we decided \$120 for both youtube voilations and i hired developer according that:

1. He fixed 1 point.
2. He checked complete site to get issue and found issue, which i told you.

So i need to pay him atleast half of amount.

And as per our discussion i have \$25 remaining from your side, which you will pay me on 27th May.

So according all discussion you need to pay $\$60 + \$25 = \$85$ remaining amount today.

Also still brother i am saying you that as you are ready to pay \$100 for both sites, then what is issue to pay \$115.

Only matter of \$15.

And this is nothing for experience service and quality service which i am paying you.

i never refuse to work you anytime,

always ready

so still saying you, or request you pls pay me \$115 as earlier for whole month.

And i am ready to work from today

I saw work for your new developer/designer.

He even don't know what quality needs to be upload online to increase speed and optimization.

23:34

there?

23:50
