I have had online stores for 13 years...and internet stores are becoming more and more profitable as you see more and more physical stores closing down.

I am offering a store just like mine which is producing 6 figures monthly in the high end sex doll industry. one time charge of \$5k includes logo, store, supplier info, and my marketers in India that specialize in the adult niches.

I have been offered a percentage on my suppliers end to get a few more stores running...if you're looking to make money from home...really good money...this could be the opportunity for you...easy to run. Supplier ships the dolls for you. I spend just a few hours a week running this drop ship business...no experience needed in ecommerce.
