T'was the nigh before eviction, and all through the hood, not a Negro was stirring, it was all good.
Crips Bloods and gansta's, all doin' the scene, even the Pit Bulls are trained extra mean.
Angela, Gerald the whole crew and all, to get this shit posted, was an order real tall.
But John scurried and scampered, he hid in the bush, knowing the Johnson's would all stomp his tush.
No pepper spray no ball bat not even a gun, with only his courage John got the job done.
Pictures a plenty will follow for sure, leaving no doubt, that service was given.....and given
