How is this for a reply..if you don't quit sending me canned dialog designed to just delay...I will begin writing reviews for your company and they will include copies of your ridiculous time-wasting responses. I already have an email from you stating you were sending the replacement part, so you acknowledge the problem. Great way to get repeat business!!! You have 5 days to get me a proper response before I start writing reviews and believe me ...I am a good writer.

Ok, I have been very patient and have a broken stool sitting in my kitchen for weeks. Your last communication stated 3-4 weeks for delivery..it has been 8weeks. Please resolve this or send me another stool. Copies of pertinent info attached.
