

# SAVE THE ALLAPATTAH LIBRARY

## Our Allapattah Library may be closing soon!

The City of Miami has agreed to allow a developer to create affordable housing on the land where the library is.

We don't want to see the library go! For years, students at Jackson High have met at the library after school to hang out, use the free Wifi, or find a quiet place to do homework. It's a vital resource for our entire community.

We'd love to see the new development include a library and public spaces for students and families.

Sign the petition and add your voice to keep the library. Scan the QR code, or visit [allapattahcdc.org/publicland](http://allapattahcdc.org/publicland) for more.

The Allapattah Collaborative, CDC
