Hello,

what's wrong with your service! You ask a payment to then ask a second one?!!

If I had the original proof of purchase I wouldn't need you. The previous owner is a company that sell item on behalf of an insurance company. So good luck with them to have it unlocked.

I will still give you my proof of purchase and their contact.

[Trademe@twice.nz](mailto:Trademe@twice.nz)

You claimed a 24h unlock service or a refund, I will contact you again in 24h.

Nathan Mariani

## **Re: Chasing 356132581668457 locked to Activation Lock**

Hi Nathan,

Thanks for your email.

This IMEI was issued to the carrier on the 27th as per your order status page and is currently in process, don't worry as soon as it's been unlocked you will be emailed as well as the order status page being updated.

The average unlocking timeframe of this handset is 3 days, 0 hours (Monday-Friday). The percentage meter will give you a more accurate time scale for your device, if it reaches 100% and its not

< All Inboxes Chasing 356132...

Thanks for your email.

This IMEI was issued to the carrier on the 27th as per your order status page and is currently in process, don't worry as soon as it's been unlocked you will be emailed as well as the order status page being updated.

The average unlocking timeframe of this handset is 3 days, 0 hours (Monday-Friday). The percentage meter will give you a more accurate time scale for your device, if it reaches 100% and its not unlocked then we will chase the IMEI with the carrier for you and place it on priority.

Kind regards,

Tim

iPhoneIMEI Team

Dear Nathan,

We attempted to remove your iCloud locked device from the previous owner's account but were unable to do so as the iCloud Account associated with the iPhone SE 2020 (356132581668457) is unfortunately marked by Apple as Lost/Stolen. This does NOT necessarily mean that the iPhone SE 2020 has been reported lost to the carrier - this is something totally different. It means the device/iCloud account has been reported using FindMyiPhone.

Please see this excerpt from our website, on the 'iCloud Unlock' page:

Our service will permanently remove the current iCloud account from your iPhone / iPad. After the iCloud account is removed, you will immediately be able to activate the iPhone, and associate it with your own iCloud account.

Devices in "Lost Mode" or handsets which are reported Lost/Stolen to the carrier are currently incompatible with this service. We are unable to check the status of a device our end initially until the service has been attempted, and the supplier has made it clear the no refunds can be made. Premium service for lost/stolen devices is available from time to time.

How to remove iCloud account from iPhone / iPad?

It has never been easier with [iPhonelMEI.Net](#) !!! We just need your IMEI number to remove the

As stated on the website before purchase it is not possible to remove the Activation Lock on iDevices which are in Apple's iCloud lost/stolen database using our Clean service. **There may be a premium service which can unlock this device in future - if there is you will be informed as soon as it is available via email**

the Activation Lock on iDevices which are in Apple's iCloud lost/stolen database using our Clean service. **There may be a premium service which can unlock this device in future - if there is you will be informed as soon as it is available via email.**

However as a goodwill gesture you have been given a voucher for the full value of your purchase, under the email address [mabidouze@hotmail.com](mailto:mabidouze@hotmail.com) which you can use on a different device or against a network unlock for a different unit (please note they cannot be used against another iCloud unlock, see below for reasons), or you can save the voucher to use against the Premium Service which is due to resume shortly as stated. This voucher will not expire

As we have already prepared your unlock and incurred a submission charge by our supplier, we cannot issue a card refund for devices which are rejected for being on the blacklist (as per our terms and conditions at <https://imeidoctor.com/terms>) but we have given you a voucher against another unlock, see below. If you do not wish to to use our Any Network (Worldwide) Premium Service to unlock this IMEI or have no other IMEI to unlock, and you believe the status of your iPhone 7 to be clean and can provide proof that the IMEI is not lost/stolen or in contract, please reply to this email **with proof** and we will be only too happy to authorise a card refund.

There are numerous services such as <http://cleancheck.me> (FREE) which can be used to identify Lost/Stolen devices.

**\*\* Important: this voucher is not compatible with another iCloud purchase \*\***

Please note that we incur a cost from our supplier EVERY SINGLE time we submit an iCloud unlock, and they refuse refunds for blacklisted units. Some clients previously took advantage of this and were using their vouchers to submit 10+ iClouds consecutively, costing us hundreds of dollars on a \$50 purchase. For this reason, we now only allow ONE failed iCloud purchase per customer. Please use your voucher against a network unlock, not an iCloud unlock. If you have no other device to sim unlock at the current time, please save your vouchers for premium service for this IMEI, or perhaps friends or a family member can make use of one of our network
