Subject: CPS Oregon

So, CPS said on their reports that you told them I was very manipulative and that I had dirty Meth tests. That There were marks on Davids BUTT... NOPE Back and arm , not from me, that's why they changed it to unsubstantiated... Also, they took Izzy, put her with Jennifer because Jennifer did what CPS does and had izzy do lies to save Jennifer from drugs. Izzy thinks she is saving Jennifer. Arguments between Izzy and Seth they changed the stories to I said them. Jennifer inherited money and is playing them like she did you guys and they believe her. I have witnesses that know Izzy was hurt at her moms but they are blaming it on me. Because Jennifer said. The boys are destroyed. I have documented everything yet, they think Jennifer is the good guy and I am some manipulative evil bastard. They won't let me see Izzy. Claim she's suicidal which is a lie. Izzy admitted to lying and still... They said you told them A lot about me and are using it against me to steal Iz and give her to Jennifer. They say Izzy has PTSD from Tornado and ME now... SMH. HOW does Jennifer keep getting away with this???? NOTHING HAPPENED!. It's crazy. Like I am in reverse world.  
Also, I called in on Jennifer last year when she took Izzy... I said she was on Meth... SHE WAS. I got the report. 4/1/19 DIRTY. BUT, CPS here unfounded it and helped her all year to do this... This is insane Amanda. WHO do I contact that can help if anyone? The boys won't speak to Jennifer and Hate her now... She brainwashed and took advantage of Izzy. If they win, and Izzy and Jennifer get away with this. The boys will never heal and I won't let izzy near us. She can't learn to lie like mom. She is Copying. And then use the system against us and expect to have us too... They also said you said you took them because Jennifer was battered in Missouri by ME... ?????????? Call them. Call Izzy's lawyer or Mine PLEASE. Set this straight at least. I know you have no power but... They think I am a monster and Jennifer is Mary Poppins.

Gosh, I hate that they are telling you I said those things. That is just not true at all. Are you getting that information directly from CPS? Or is that coming through Jennifer? Or is that what Jennifer is telling them about the situation in Missouri? They did not get that information from me. I cannot call anyone, but if you sign releases with them they can contact me. Again, there is a reason we reunified the kids with you and not Jennifer. I would be more than happy to discuss those things with CPS or an attorney that contacts me (but you have to sign a release with them). Maybe you should request your Missouri records again so you can have all of that documentation with you? It's been about 9 years since all of that happened, though, so CPS in California will probably look more closely at the current situation than the past situation- just keep that in mind. The past definitely has some important information, but they have to look at the present situation and the information they have right now. Just remember to keep your cool with them. I know you have Izzy's (and the boys') best interest at heart and I cannot imagine how upsetting all of this is after everything you have been through with your kids- I just don't want CPS to miss all of that because I also know how you are when you are upset :) You are a good dad, Eric. I hope this is just a phase for Izzy and that she will quickly figure out how much she really means to you.

Ms. Ivey reported she recently relapsed on methamphetamine. She reports her mental health is due to her substance use. Ms. Ivey stated in the past she has been diagnosed with borderline personality in the midst of the worst part of her addiction. Previous to her substance use, she was diagnosed with PTSD, ADHD, and depression with psychosis/psychotic tendencies. Ms. Ivey reports she has not been diagnosed recently with any mental health diagnosis, but when she gets clean she wants to go back in.

Ms. Ivey reports that she used meth for the first time in 2011 when her children were removed from her home in CA for concerns of her suicide attempt and her mental health status. Ms. Ivey reported that she used with her biological mother for the first time. Ms. Ivey reported that her mother had been a user of drugs her whole time. Jennifer reports that her mother passed away in 2013, her father in 2018, and then her step brother.

during this assessment due to David having bruises on his bottom. Attempts were made to request records from Missouri. However, these records were destroyed due to the case being overturned in court. Caseworker Jessica Sherrard, during her assessment on the family in 2019, did speak with the family's prior Child Welfare caseworker from Missouri, Amanda Neace who had a wealth of information. Ms. Neace reported that the assessment had been overturned in court and that's the history was destroyed. Ms. Neace reported that the family came to the agencies attention due to David having bruising on his bottom by Eric. It was reported that David was taken to the Advocate Center and they reported that an object had been used on David. Ms. Neace reported that David never did make any disclosures of Eric physically abusing him. Ms. Neace reported that Eric and Jennifer both provided the agency with mental health evaluations. Ms. Neace will be getting back to the caseworker with that information. Ms. Neace reported that when the children were removed from Eric, they were placed with his mother Susan Ranken. Ms. Neace reported that Eric absconded with his children and drove them to California, so they could be with Jennifer. Ms. Neace reported that Eric was criminally charged with this. Ms. Neace reported that the children were put in an in-home plan through an ICPC with Jennifer in California. Ms. Neace reported that Jennifer shortly after had the children removed due to drug use and her significant other sexually abusing Isabel. It was reported that there was no finding due to no disclosures. Ms. Neace reported that Jennifer did move out to Missouri and started programs, but never finished. Ms. Neace reported that Jennifer was very manipulative. Ms. Neace reported that Jennifer ended up leaving with her boyfriend at the time and was never compliant with UA's. Ms. Neace reported that in November of 2010 the children were removed from Eric and right after he took them to California. The children were returned to Eric in January of 2013. Ms. Neace reported that during the period of working with the family, Jennifer had made accusations of domestic violence between her and Eric, but the agency did believe her. Ms. Neace reported that she never thought Eric was going to get his children back due to the rough start at first. This return was considered a success story.!

This is just SOME of it!!! The reports change saying I ADMITED to dirty meth tests in Missouri and That Missouri says I am manipulative with dirty tests etc... Those are the ones the judge saw. I just don't have time to scan it... But, believe me, they did. All of it is LIES. SEE. PROOF. Lies to a Judge and from Agents of CPS.

By the way.. Missouri was UNSUBSTANTIATED against me from their mothers BPD lies.

Jennifer tested dirty and they UNSUBSTANTIATED it??? These are the people I filed a complaint for discrimination. Jessica Sherrard and Jackie Wagoner's reports. The ones they sent to the judge contradict these, WHY? This needs settled before I must contact a Federal Attorney.
