Ok but we did not use it like I said there's no reason we'll receive your payment and denied it. Kindly send another \$100 for the benefits of doubts so that we can proceed and deliver. Let me know if you're sending with your names so as to avoid mix-up.

REPEAT! CAN'T RESEND AMAZON GIFT CERT THAT HAS BEEN USED. AMAZON JUST WON'T DO IT!

We did send you the names & emails along with the above attachment. Again, since you can't deliver product that was order, refund all money that was paid to you. That's for the product \$150, delivery to our location \$25, the insurance \$200 & the FDA Stamp approval \$200.

\$100 is the reason why we've not deliver your package so let me know if you're ready to send. And you should send using your names or let us know the names of the person that is sending it so that we'll let you know immediately we receive.
