

UNIVERSAL MEDIA FIRM

Your Marketing Home

Let's turn your vision into a reality!

It is every author's dream to see their work of art in bookstores and bookshelves. We not only aim to help you design and publish your books, we want to get your book out there so you can expand your reach and achieve your goals.

Our Services

Book Reviews

Getting your book reviewed by well-respected industry professionals is very essential to ensure your book's impact to the market. This can ignite the interest of book enthusiast and lovers elsewhere.

Professional Editing

A well-groomed manuscript is always welcome in the tables of producers and has the better chance of landing a deal compared to those that are not edited and rigged with faulty grammar, erroneous punctuation and incoherent paragraphs. A poorly edited manuscript gives decision-makers the wrong impression that the writer is lazy or inexperienced and can injure a burgeoning career before it even starts.

Video Advertising

See your book come to life and leave a lasting mark in your reader's mind with Universal Media Firm's professionally crafted, creative and entertaining Book Video Advertising services.

Audiobook Services

You've heard time and time again how the digital age is reshaping the way we do things—including enjoying a good book. So how can an author like you keep up with contemporary readers? One way is to offer them a more convenient option that caters to their multitasking ways—audiobooks.

Internet Based Advertising

Internet marketing helps you continue to grow your business. With the growth of technology, it's crucial that you have an effective Internet marketing plan in place. Internet is becoming an invaluable tool to help you reach out to your potential audience on a grand scale. This can help you expand your market from local to international marketplaces.

Don't decrease your goal. Increase your effort!
