### Notes:

If your Application Status is "**Incomplete**", you will receive a separate email notification from Prometric identifying the details that are missing on your application and providing instructions on how to complete the process.

If your FBI background check status is "Record Not Found", you must go to a livescan vendor for fingerprinting. Please visit [www.prometric.com/nurseaide/fl](http://www.prometric.com/nurseaide/fl) for more information about the livescan vendors. Please use the ORI number EDOH0380Z when completing a livescan.

Your FBI record status is only updated one time at the initial check done with your application. This will not update in our system once you submit fingerprints.

If your Eligibility Approval Status is "Approved", and you plan to test at your school with your training class (in-facility testing), you may have to wait for other candidates to be deemed eligible by the State before we can schedule your testing appointment. If we can't schedule you at your school within 45 days of your Eligibility Approval date, we MAY schedule you into the next available appointment at a nearby regional testing site.

You may contact Prometric to schedule IFT exam at a regional testing site, if you prefer an earlier test date.
