Driver	VJ				
Good unit #					
Bad unit #					
Ref No.					
TOTAL CHARGES:					3,773.00

PSP Hamburg dispatched V&M @ 4:59 AM for a Tractor trailer that had hit a guard rail. A HD Wrecker was dispatched to the scene. Upon arrival crews found the unit had struck the guard rail and pushed the axle back into the DPF filter. The HD Wrecker used the boom to lift the front of the truck and set it on blocks so the under reach could be attached to the axle. The axle was chained in place so it would not slide and the driveline was pulled. The unit was towed back to V&M Hamburg where it was split and parked.
