Rip off reports in place all comments have been approved thus far clearly not lying about anything. I have all documentation in my phone and hardcopies of everything necessary to go to whatever court necessary to take everybody down. I've plastered it all online not every drop of it, but a large chunk of it. The federal court systems and Harris county district clerks office has been reported to the FBI for corruption. As of last year they've been corrupt for way too long and everybody needs to go down immediately. Tell us what happened

Please tell us everything you can remember about the incident

Radisson Baltimore 2012 left in a wheelchair after being taken by ambulance to Johns Hopkins hospital after Shannon Kerr paid for the hotel room for my father and I had to go out there after me discovering that I had extra ribs in my neck and he abducted me and my father, and then turned around and sold my 2007 Ford or white infinity to cover the whole damn thing up and then plotted to kill me from there after we've planted car bombs through Carmax in a used car king pin that went down according to the FBI somewhere in New York Incessant, talking, obsessive, harassment people, ignoring me as though I was walking dead body. I did everything I possibly could in order to survive and I survived. It is screwed up as it is it's the freaking truth. This ties back to the gang rape when I was 19 years old in Houston, Texas, where I was kidnapped from my apartment in my Maxima taking somewhere in Texas to be tortured, raped and killed but luckily the neighbors are great and my grandfather was a life back then and I woke up naked with my clothes in a pile on the floor with the keys in my hand, and there's two people were gone dead somewhere in Texas

Have you told anybody else about this incident?

Yes

Please tell us as much as you can about the individual(s) or organisation(s) you've shared information with. It helps us to know their names so we can contact them.

Local, law-enforcement, and the FBI, and all of social media, and various people throughout the course of my life that just stand there in a haze i remember some don't Spartanburg county and city law-enforcement I have like 12 of them all in one group text and then everything that I've said on social media channels. I've made different reports see surgeon Reeves at the intake desk or any of law-enforcement in Spartanburg county sheriffs department they know this case like the back of their hand. I've also created a Google public spreadsheet for the whole world to peer in on that workbook and do what they can to hold these people accountable still, I've been paid nothing and the Cochran firm finally talk to me and I'm supposed to be getting callbacks from respective offices, but that's gonna take some time with multiple investigators in multiple states. I get it, but this needs to get resolved. I'm still recovering from the last of duction from last year and then shots fired April 8 in Duncan South Carolina that hit the mustangs windshield. I don't care who did it but that's why anti-stalking and anti-harassment is in place.

Did you suffer any physical injuries?

Yes

Please tell us about your injuries

Millions of dollars in bodily injury damages, I need seven different surgeries plus all of my teeth, replaced for different crime, victims compensation commissions, involved all the body cameras of all officers need to be checked immediately, especially the arbitrary attack of myself and being left for dead on Maui June 11 of 2018 that took place a gym for me some Maui well Shannon Kerr and I was we're still married and it wasn't final until September 27 of 2018. I handed him his ass in court and this is all over paying me \$5000 a month for the rest of my life when he gets 20,000+ per month for the rest of his life with his job and he'd rather pay off everybody in sight instead of pay me and then commit fraud on the court mistrial and all this other crap just to create a shit storm so you can cover up the fact that he paid himself \$10 million on a fraudulent insurance claim this whole situation is nothing but a gigantic insurance fraud case in all directions healthcare car insurance you name it the covering it all up and bill pay where they're paying themselves I got claim numbers in all directions and I still haven't been paid a freaking dime and dealing with five stolen international clearance Service animals to Katz three dogs two states South Carolina and Missouri, Missouri Billions of dollars in damages if not trillions of dollars in damages are deficit is like \$33 trillion. That's all the damage is over the years of our government trying to keep me and others alive that know everything about what's going on everybody needs to be committed for insanity at a billion \$. I had was 75 billion in question according to the Central intelligence agency that equates to 7.5×10 to the 19th power with trillion mark at 12 zeros and clearly Elon musk is in on all of it. He should've found a way to get me my Tesla and he didn't so clearly he's in on it and clearly all that money is mine and clearly he goes to Federal prison.
