The more effective and professional your ad looks, the better the response.

WHAT TYPE OF CRAIGSLIST AD:

The most effective place to advertise is in the Job Section under Sales. This section will always get you very good results.

ADVERTISING ON CRAIGSLIST:

We like to recommend advertising on Craigslist as part of your advertising campaign for two reasons:

#1: Craigslist has a very large viewership and you are guaranteed to receive an excellent response from your Craigslist ad.

#2: We also like to recommend Craigslist because we receive very few complaints when someone places an ad. It is fairly simple.

Advertising on Craigslist has excellent results and is always 100% refundable.

NATIONAL ADVERTISING LOG BOOK:

Our company keeps a National Advertising Log Book for Craigslist. Let us know if you want to place a Craigslist ad so we can assign you a major city for yourself. This is a national business so you can advertise in any state. The main reason we keep a National Advertising Log Book is so we can manage and monitor where everyone is advertising. This way we can guarantee that no other person is placing the same ad in the same city at the same time is you. The other reason we keep a log book is so we can determine who is responsible for placing an ad in case someone forgets to write down the Referral ID Number. We are always very diligent to make sure we give credit to the correct person who placed the ad.

CRAIGSLIST PROMOTION:

\$100.00 Cash Bonus!!!
