**Vue:**

The Church of Jesus Christ of Latter Day Saints 1229 Landscape Vue Waimanalo HI 241  
41-972 Oluolu St, Waimanalo, HI 96795, USA (4 mi away)

**PROBLEM:**

Vue status changed from "Start Vue" to "Disabled for dormant Vue" while I was headed to the location forcing me to do it manually since I had already traveled there.

Attached are images of the lawn, bushes, trees, signs, entrances, etc.

**Grade:**

Lawn/Grass - 4 overall

No debris, some brown patches, no weeds

Trees - 4 overall

No hanging, trimmed

Bushes - 4 overall

Trimmed, no dying

Overall - 4

36 images TOTAL

I deserve to be paid for this and this problem started over the past week. How can we assure that this stops as it is HIGHLY UPSETTING!???

It was before 8pm when the normal "Start Vue" button was greyed out. I deserve to be paid for my time, effort, and data after your app malfunctioned or I will file complaints with external entities. It's just \$10 and I sent you all the data. Your app malfunctioned otherwise we wouldn't be having this conversation!

Hi,

It's 4 days later and the payment has not been credited to my account. Are they still working on this?

Each Vue has a timeframe and days in which it is available. The LDS Vues aren't available on Sundays at the client's request. You'll see the available days listed on the front page of the Vue.

Someone already looked into this and promised the \$10 payout. I'd just like to get paid for my time and effort.

Someone already looked into this and promised the \$10 credit. The "start Vue" button was there and turned grey and this was in the evening. Also, how/why was able to reserve it if cannot be executed? That doesn't sound logical...

I am requesting at least partial payment because I shouldn't have been able to reserve the Vue in the first place and then it is not shown until I arrive at the site that it is inoperable.
