This request has been rated as:

Bad, I'm unsatisfied

With the following comment:

we were forced to upgrade to get talk and voice we selected a monthly upgrade but we make a mistake going back and forth reading and comparing plans and it went back on to annual as we upgraded we did not know we had made a mistake until surprise bill we were not expecting arrived we got none of the services delivered no talk no text we then got told tough luck by Zendesk people and are stuck on the wrong sub and cannot change seats for agents or use the growth plan Absolutely gutted, feel ripped off and abandoned
