Az

The inspection revealed the following items that in the inspector's opinion are the builder's responsibility to repair or replace in the first year warranty period per the Registrar of Contractors. If the homeowner and builder do not agree as to who is responsible for necessary repairs then the Registrar of Contractors should be contacted to make the appropriate ruling.

## I. ROOF

---

### 1.0 ROOF COVERINGS

 REPAIR OR REPLACE

(1) Open cell at the ridge of the front slope. The tiles should be faced with the front being closed cell. Replaced tiles in this area.

1.0 Item 1 (Picture)

1.0 Item 2 (Picture)

(2) Open cell at the ridge of the rear slope. The tiles should be faced with the front being closed cell. Replaced tiles in this area.

## II. EXTERIOR

---

### 2.0 DOORS

#### ☐ REPAIR OR REPLACE

(1) The trim at the top of the front door needs to be caulked sealed to the stucco.

(2) The front door does not make contact with the casing and weather stripping across the top corner. This may be from a warped door, or twisted casing. Consult a qualified contractor to allow the door to seal properly.

(3) The trim at the top of the garage service door needs to be caulked sealed to the stucco.

(4) Caulking at the sliding door stop is cracked and separated. Caulk and seal.

## 2.1 WALL CLADDING, FLASHING AND TRIM

### ☐ REPAIR OR REPLACE

(1) Excessive gap at the screed plate at the front porch. Gaps should be smaller than 1" to limit access to critters.

(2) The pop out at the front door has the wood trim from the front door buried into the stucco. Suggest having a 1" min separation to prevent wood rot from moisture within the porous stucco.

(3) The garage door trim has separated. The gaps should be caulked/sealed.

(4) Stucco cracks at the arcadia door , Patch and paint.

(5) Stucco patch and paint needed above the main panel.

(6) Lath nail protruding at the pop out on the SE corner of house.

## 2.2 PAINT

### ☐ REPAIR OR REPLACE

(1) PAint touch up needed at the front door trim.

(2) Remove the spray foam at the front eave that has leaked out of the attic space at the NE corner. Touch up paint to match.

(3) PAint touch up needed at the front entrance.

## 2.4 DECKS, BALCONIES, STOOPS, STEPS, AREAWAYS, PORCHES, PATIO/ COVER AND APPLICABLE RAILINGS

☐ REPAIR OR REPLACE

(1) Cracking at the wall to ceiling junction across the front porch. Patch and paint.

(2) Cracking at the wall to ceiling junction across the rear patio. Patch and paint.

## 2.6 EAVES, SOFFITS AND FASCIAS

☐ REPAIR OR REPLACE

(1) Exposed nails/roof staples at the front eave . Remove and patch all roof penetrations at the eave.

(2) Exposed nails/roof staples at the East eave. Remove and patch all roof penetrations at the eave.

(3) Exposed nails/roof staples at the NW side of house. Remove and patch all roof penetrations at the eave.

## 2.10 FOUNDATION

### REPAIR OR REPLACE

The hairline cracks, at the garage floor, should be monitored for spalling/chipping. Any chips should be patched/ repaired.

2.10 Item 1 (Picture)
